SPECIAL STITCHES

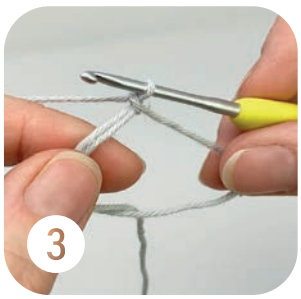

Magic Ring

A magic ring (also known as a magic circle) is an adjustable loop into which the first 6sts are made and then pulled tight to eliminate a hole at the start of each piece.

Place the tail end over your fingers, wrap it around the back, under and up over the top again crossing it over (1). Insert your hook under the first loop and grab the second loop (2), pull through, ch1 to secure (3). This ch does not count as a stitch. You will then crochet the first stitches into this loop, then pull gently on the tail end to bring the stitches together in a circle (4).

SPECIAL STITCHES CONT...

Colour change

Double crochet: Where it states to change colour, do it in the last stitch of the round you have just completed (unless otherwise stated).

Start a dc as normal (5), but for the last part of the stitch (yo and draw through 2 loops), yo with the new colour ready to start the next round, (6 & 7). Continue onto the next round (8).

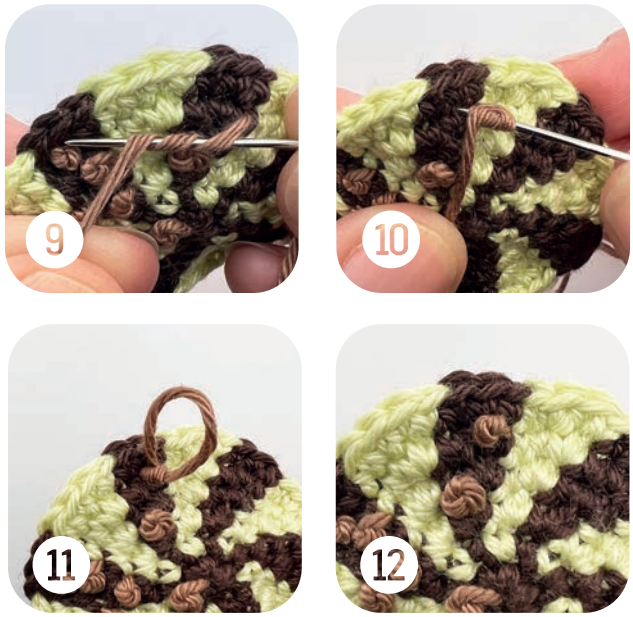

Slip stitch: Insert hook into the stitch then yo with the new colour to complete the stitch. See image I on page 9.

French knots

Thread the yarn onto a tapestry needle and knot the end. Bring the needle out where you want the first French knot. Wrap the yarn around the needle (working down towards the point) 3 times* (9). Insert the needle back in close to where you started (10). Keeping the working yarn taut, pass the needle through the knot (11 & 12).

*If you are using a thicker yarn wrap the yarn 2 times around the hook instead.

TENSION

Tension is not critical but ensure your stitches are as dense as possible. It is important to try and keep your tension the same especially while crocheting the cone to make sure the shape is smooth.

All our patterns go through a testing process and we do our best to ensure they are as clear and detailed as possible, but if you do get stuck, you see a mistake, or something just doesn't make sense, then please contact us and we can give you advice on how to proceed: kate@makemeroar.co.uk / Instagram: makemeroardesign / Facebook: Make Me Roar

R 37 (inc, 19dc) 2 times. (42sts)

In the next round the stitch count will remain at 42sts (dc in each st around), but you will be changing colour several times from yarn F to yarn B.

R 38 (4dc in yarn F, 3dc in yarn B) 6 times. See image G. (42sts).

Stuff the cone.

In the next round we will join the cone to the topping. This is done with slip stitches and changing colour to follow the swirl pattern. This part is a little fiddly. If you find it too hard, the cone and the topping can be sewn together instead.

R 39 Insert your hook into the next st of the cone and then through a corresponding st on the topping, making sure the design lines up correctly (see image H), then make a sl st.

Sl st into each st around, making sure to change colour in the right places. You will need to make sure that the colour you are not using is inside (not over the top) so it is ready to pick up at the next colour change. See image I.

Before you complete the join, add a little more stuffing.

Fasten off and weave in all ends.

CHOCOLATE ICE CREAM

TOPPING

Make a magic ring in yarn B.

Make as the TOPPING for Mint Ice Cream on page 4 alternating, between yarn B and yarn C.

Use yarn A and make French knots all over the chocolate part of the topping.

CONE

Make as the CONE for Mint ice cream, using yarn C instead of yarn F.
